Our focus is on customised design and landscape construction, working closely with individual requirements to enhance your current environment, or build your ideal environment.

We create unique landscape designs using timber, stone, paving and other natural materials.

Projects range from large to small and we work with residential and commercial clients across Sydney.

Why Work With Us?

Unique: every project is individual in what our clients require and our approach ensures we deliver solutions customised to your needs

Craftmanship: all projects are built with attention to detail and the highest quality of workmanship

Materials: we only source and use the highest quality materials available to ensure detailed finishing and sustainable designs

Reputable: our work is not mass produced and we pride ourselves on past clients referring Cicada Creations to family and friends
